

What does the Nyefactory do?

We provide branding, advertising and copy writing solutions.

Do I need a developer or designer?

Many people who create a website from start to finish. Many people who utilize graphics, web layouts, site maps & produce the final product call themselves developers but those who conceptualize and plan out the site from scratch are actually Web Designers.

- Candidates should be able to provide URL's of previous work. This is the equivalent of a portfolio.
- All programming code should be clean and well organized.
- Many Web development companies screen their candidates with a HTML programming or coding test.
- Be sure to get references from previous clients or employers.

The NYE FACTORYS' creative Team provides all the above requirements

How much do your services cost?

Our initial consultation is free of charge. A list of our competitive pricing can be found on our price list which is available upon request.

Where can we meet for a consultation?

We meet our clients at the location of their choice. Wether at one of our own office spaces in Philadelphia PA or Lancaster PA or at their own office. We also conduct video conferences online via VOIP and secure VPN.
